

VETERINARY RADIATION PROTECTION, POSITIONERS, AND EYEWEAR

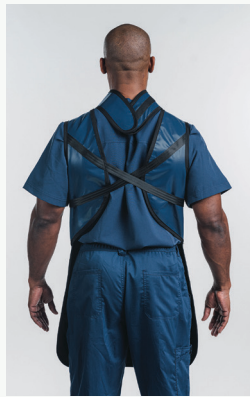

Our veterinary radiation protection offerings are designed specifically to meet the demands of busy veterinary practices, offering easy-to-clean fabric and durable materials that can hold up to the pressures of heavy use. This line features aprons, thyroid shields, mitts, and hand shields, all crafted from our rigorously tested attenuation material. We also offer pet immobilizer positioners in the same durable, easy-to-clean blue vinyl fabric.

PREMIUM RADIATION PROTECTION APRONS & THYROID SHIELDS

Our aprons provide superior protection with 0.5mm Lead and Lead-Composite attenuation material. They are available in three convenient closure options to suit your needs. All aprons are made of durable, easy-to-clean navy vinyl fabric and are backed by our 5-year warranty.

APRON CLOSURE OPTIONS:

QUICK TIE CLOSURE:

Secure and easy to adjust, perfect for quick use.

HOOK-AND-LOOP CLOSURE:

Offers a snug fit with the convenience of Velcro®.

BUCKLE CLOSURE:

Designed for environments where infection control is critical, this buckle closure is easy to clean and sanitize.

F02 UNISEX APRON SIZES (VET ONLY)

	Chest Range (inches)	Max Chest (inches)	Apron Width (inches)	Total Length (inches)	Height Guideline (feet and inches)
SM	22.75"	22.75"	22.75"	36"	5'6"– 5'10"
MED	23.75"	23.75"	23.75"	38"	5'8"– 6'0"
LRG	24.5"	24.5"	24.5"	42"	5'10"– 6'2"
XL	27"	27"	27"	43.25"	5'10"– 6'2"

THYROID SHIELD OPTIONS

Each apron is made from highly durable navy-blue vinyl fabric, designed to withstand heavy use and ensure long-lasting performance. For added protection, our aprons feature either a sewn-on or removable thyroid shield, available in 0.5mm lead or a lighter-weight lead composite option, allowing you to choose the ideal solution for your practice. One size fits all.

EYEWEAR

Our extensive eyewear line is designed for maximum comfort and style, weight distribution, and protection against scatter radiation. Available in both plano and prescription options, including single vision, bifocal and progressive bifocal prescriptions, all lenses provide 0.75mm Pb lead protection. We offer options for an anti-fog lens coating and a combination anti-reflective and anti-fog coating for clear, unclouded vision. Frames can be personalized with engraving, and detailed sizing specifications ensure the perfect fit. Optional side shields offer added protection, with upgrades to 0.5mm leaded coverage available.

HAND PROTECTION

Protecting your hands during procedures is essential, and our slit mitts and hand shields are up to the task. Made from the same durable blue vinyl as our aprons and thyroid shields, these shields are perfect for handling and transferring pets while providing reliable radiation protection. The easy-to-wipe-clean fabric ensures that maintaining hygiene is simple and efficient.

Slit mitts, hand shields, and LG2 gloves are available as a pair. One size fits all.

SLIT MITTS

Slit mitts are designed with a slit on the inside, allowing the fingers to partially or fully extend outside the top of the glove for better grip when needed. Made with leaded attenuation material, they provide 0.5mm scatter radiation protection. The mitts are covered in durable, easy-to-clean navy vinyl fabric.

HAND SHIELDS

Hand shields offer excellent protection for the top of the hand while leaving the hand and fingers uncovered to improve grip. They stay securely in place with comfortable elastic loops, ensuring they remain positioned for optimal protection during use. Made with leaded attenuation material, they provide 0.5mm scatter radiation protection. These shields are covered in durable, easy-to-clean navy vinyl fabric.

LG2 GLOVES

The LG2 gloves feature a supple vinyl exterior with a soft foam liner for comfort. These dip-molded gloves come in a rich, dark blue color and provide 0.5mm lead-equivalent radiation protection with lead attenuation material for optimal shielding.

Each glove measures 15 inches in length, with a width of 6.5 inches at the base, tapering to 5 inches at the hand section. The total weight for the pair is 6 pounds.

INFORMATION
AND OPTIONS

Safety and precision are crucial when positioning pets for X-rays or other medical procedures. Pet positioners play a vital role in obtaining accurate results by securely holding animals in place, reducing movement that could compromise image quality. These aids also enhance comfort, help maintain a sterile environment, and minimize the need for repeat imaging, making diagnostics more efficient.

IMMOBILIZERS

Available in three sizes, our pet immobilizers offer a versatile solution for your practice, ensuring proper positioning and protection for every pet. They feature a deep V shape, designed to securely accommodate animals of various sizes.

The nylon-reinforced vinyl cover is durable, tear-resistant, and easy to clean, with a hook-and-loop closure on the underside. Hook-and-loop fastening straps secure extremities during procedures, and the foam is radiolucent.

SMALL	24" L x 10" W x 6" H
LARGE	36" L x 14" W x 8" H
EXTRA LARGE	48" L x 14" W x 8" H
SET	Set includes small and large immobilizers

STORAGE RACKS

Proper storage racks are crucial for maintaining the protection and longevity of your radiation safety gear. Whether you need sturdy wall racks to keep aprons and gloves properly hung and accessible or mobile racks for flexibility and easy transport, our durable racks are built to handle the weight of medical equipment and withstand heavy use.

MR9 “SPIDER RACK”

With eight arms for holding up to eight 8 radiation protection aprons and a removable upright glove holder, the Spider Rack offers superior mobility and storage capability. The arms are supported by a sturdy, metal pole extending upward from the 26"-wide, five-leg, star-shaped base. Nylon casters at the base ensure smooth movement across floor surfaces.

Some assembly is required.

DIMENSIONS	69" L x 26" W x 28" Base
WEIGHT (RACK ONLY)	30 lbs
WEIGHT (WITH GLOVE HOLDER)	38 lbs

WR11

Securely attach two aprons and two pairs of gloves to this sturdy four-hook rack, designed to hold them firmly in place. Built to withstand heavy use, this resilient rack effortlessly handles the weight of the items, ensuring long-term durability and reliable functionality without any compromise.

DIMENSIONS	23" W x 6" H x 14 ³ / ₈ " D
WEIGHT	15 lbs

WR4
WALL-MOUNTED
PEG RACK

WALL-MOUNTED PEG RACKS

The wall-mounted peg rack is designed to hold frontal or wrap-around aprons. Great for areas with little room for storage. Each peg is 4" long.

	DIMENSIONS	CAPACITY
WR1	6" W x 3" H x 4 $\frac{5}{16}$ " D	1 Apron
WR3	19" W x 3" H x 4 $\frac{5}{16}$ " D	4 Aprons
WR4 (PICTURED)	12" W x 3" H x 4 $\frac{5}{16}$ " D	2 Aprons
WR5	36" W x 3" H x 4 $\frac{5}{16}$ " D	7 Aprons
WR6	50" W x 3" H x 4 $\frac{5}{16}$ " D	9 Aprons

WR7 "TUBULAR RACK"

Radiation protection aprons and a pair of gloves can happily coexist on this totally Tubular Rack. Simply slip your protective apron's straps over the horizontal support bar and place your gloves on the upright support posts. Built from heavy-duty, painted steel, this rack is designed to offer long-lasting durability, ensuring years of reliable storage for your radiation-protective apparel.

Some assembly is required; installation hardware is not included.

DIMENSIONS	27 $\frac{1}{2}$ " W x 16" H x 9 $\frac{1}{2}$ " D
WEIGHT	7 lbs
